Recommend a Travel Plan for a Given Budget and Time

Recommend | OREO | Option Challenge

Name: _____ Date: _____

SLIDE 02 Today's goal

By the end of this lesson, I can:

Find out how many days and how much money someone has, and recommend a trip that fits: the total cost, the days there and one comparison.

WHO You work in a small company in JB. Ali from IT has four days off next week, Thursday to Sunday, and he has RM1,500 to spend.

SITUATION He has two ideas: Penang or Ipoh. At lunch he asks you and Mei Ling, 'Which one should I go to?' The travel times and costs are in the boxes below.

NEED Ali has four days and RM1,500 in total. He wants to eat good local food and relax.

GOAL Recommend one place, say what the trip will cost and how many days he will have there, compare it with the other place, and answer Ali's questions.

Penang

- Plane from Senai: 1 hour 15 minutes
- Flight RM300 return · hotel and food about RM250 a day
- 4 days: about RM1,300 in total

Ipoh

- Bus: 8 hours each way
- Bus RM140 return · hotel and food about RM190 a day
- 4 days: about RM900 in total

SLIDE 03 Try it first

Ali asks: "I've got four days off next week and RM1,500. Penang or Ipoh? Which one should I go to?" Say something for 30 seconds. Then note what you said.

SLIDE 04 A good message

Mei Ling's answer. Mark where each part starts.

You've got four days and RM1,500, so I'd recommend Penang, because it fits your time and your money. The main reason is time. The flight is only an hour and fifteen minutes, so you'll have almost all four days in Penang. Ipoh is cheaper, but the bus takes eight hours each way, so Thursday and Sunday will go on the road. Penang will cost about RM1,300, so you'll still have RM200 left. So overall, if you want four real days of holiday, Penang is the better choice.

O RECOMMENDATION AGAIN

SLIDE 05 Organise it

Kumar recommends a day out for Siti's parents. Order: Recommend → Reason → Compare → Recommend again.

- [ ] Singapore has more to see, but the Causeway queue can take two hours each way on a Sunday.
- [ ] Your parents want a day out on Sunday with about RM300, so I'd recommend Kukup.
- [ ] The main reason is the drive: it's only an hour from JB, so you'll be home before dark.
- [ ] So if your parents want an easy day and good seafood, Kukup is the better choice.

Write the letter: **O** = Limits · recommend · **R** = Reason · **E** = Compare · total · **O** = Recommendation again

It **will cost** about RM1,300 in total, so you'**ll** still **have** RM200 left.

Ali **is going to** take two days' leave, so he'll have four days off.

If you **take** the bus, you'**ll spend** Thursday and Sunday on the road.

SLIDE 11 Option Challenge

The recommender asks about the days, the money, who is going and the wish, then recommends one of two places with the total cost. The listener writes a note: the choice, the total, the days there and why not the other place.

1. Round 1 (3:00): say your card number. Ask: days, money, who's going, the wish. Add up, then recommend one place.
2. Listener: answer only when asked, fill the note, ask for any empty line, then 'Why not the other one?' (1–2 sentences).
3. Round 2 (2:00): line B moves. Same card, new listener, no asking: limits, choice, total, one line on the other place.
4. Round 3 (1:00), frames closed, no asking: 'You've got …, so …'. Workbook over, card only. Then swap roles and repeat.

SLIDE 12 Respond

Ali asks. Write a short answer to one of these.

1. How much will it cost in total?
2. How many days will I really have there?
3. What should I book first?

Start with: **It will cost about RM… in total, so … · You'll have about … days there, because … · I'd book the … first, this week.**

SLIDE 13 Transfer

Kumar must be at a customer meeting in KL next Tuesday at 10 a.m., and the travel budget is RM400. Plane: RM300 return, 1 hour, but he must be at Senai airport by 6.30 a.m. Company car: RM200 for petrol and tolls, 4 hours each way, so he must leave JB by 5.30 a.m. Recommend one to Mr. Tan.

He needs to be there by 10, so I'd recommend … · The plane costs RM…, and the car … · If he drives, he'll … · So overall, …

SLIDE 14 Did I do it?

Be honest. Tick what you did in the task.

- [ ] Names the days and the money, and recommends one place.
- [ ] Says the total cost and how many days they will have there.
- [ ] Compares the two places on a need and says why the choice fits.
