Recommend a Service Provider You Have Used

Recommend | OREO | Make a Recommendation

Name: _____ Date: _____

SLIDE 02 Today's goal

By the end of this lesson, I can:

Find out what someone needs, recommend a service you have used, and say why it fits: what happened when you used it, one problem, and a comparison.

WHO Kumar's son is in Form 2, and his maths mark fell to 45% this year. At lunch, he asks you and Siti about tuition: your son and Siti's son went to two centres together last year.

SITUATION The two boys were at the big centre in Mount Austin from January to March, then at the small centre in Taman Molek from April to November. The facts are in the boxes below.

NEED Kumar's son is shy and does not ask questions in a big class. Kumar can pay about RM200 a month. He finishes work at 6, so classes must start at 7 p.m. or later.

GOAL Find out what Kumar needs, recommend one centre, say what happened when your son went there, compare the two, and name one problem honestly.

Small centre, Taman Molek

- RM180 a month · groups of 8 · Tuesday and Thursday, 7–9 p.m.
- The boys: April to November · maths from about 50% to over 70% (Siti's son 72%) · a report from the teacher every month
- One problem: it is hard to park at 7 p.m.

Big centre, Mount Austin

- RM150 a month · classes of 25 · Monday and Wednesday, 7–9 p.m.
- The boys: January to March · good notes and past papers · maths stayed at about 50%
- One problem: the boys never asked a question in a class of 25

SLIDE 03 Try it first

Kumar asks: “My son’s maths is really bad this year, and he’s so shy he never asks the teacher anything. Your son went to tuition last year, right? Which centre should I send him to?” Say something for 30 seconds. Then note what you said.

SLIDE 04 A good message

Siti’s answer. Mark where each part starts.

You said he’s shy and needs a small class, so I'd recommend the small centre in Taman Molek. My son went there from April to November. There were only eight in his group, so he asked a lot of questions, and his maths went from 50% to 72%. The Mount Austin centre is RM30 cheaper, but there are 25 in a class, and my son never asked anything there. One problem with Taman Molek: it’s hard to park at 7 p.m. So if you want him to ask questions, the Taman Molek centre is the better choice. Just go ten minutes early.

SLIDE 05 Organise it

Mei Ling recommends a dentist to Siti. Order: Need + recommend → What happened → Compare → Recommend again.

- [ ] One problem: it's always busy. It's RM20 more than the clinic near your house, but that one is closed at weekends.
- [ ] So if Saturday is your only free day, the Taman Pelangi clinic is the better choice.
- [ ] I had a filling there in March. The dentist explained each step first, and it didn't hurt at all.
- [ ] You can only go on Saturdays, so I'd recommend the dental clinic above the bakery in Taman Pelangi.

Write the letter: **O** = Need · recommend · **R** = What happened · **E** = Compare · one problem · **O** = Recommend again

SLIDE 11 Make a Recommendation

The recommender asks what the listener needs, recommends one of two services they have used, says what happened and names one problem. The listener writes a note: the choice and why, what happened, the problem.

1. Round 1 (3:00): say your card number. Ask what the listener needs. Recommend one, say what happened, name one problem.
2. Listener: tell the needs when asked, fill the note, ask for any empty line, then ask 'Why not the other one?'
3. Round 2 (2:00): line B moves one seat. Same card, new listener, shorter: need, choice, what happened, one problem.
4. Round 3 (1:00), frames closed, no asking: 'You need …, so I'd recommend …'. Card only. Swap roles: rounds 1–3 again.

SLIDE 12 Respond

Kumar asks. Write a short answer to one of these.

1. What days are the classes?
2. How long did your son go there?
3. Is there anything bad about it?

Start with: **The classes are on … , from … to … · He went there from … to … · One problem is …, so …**

SLIDE 13 Transfer

Mr. Tan wants the office carpets cleaned on a Saturday, before a customer visit on Monday, and can pay about RM500. At your last job you used two companies, both on Saturdays. Shine Clean: RM520, a very good job, but they came an hour late. Pro Clean: RM420, on time, but you had to call them back for two dirty corners. Recommend one.

You need …, so I'd recommend … · We used them at my last job, and … · … is cheaper than …, but … · So if …, … is the better choice.

SLIDE 14 Did I do it?

Be honest. Tick what you did in the task.

- [ ] Names the listener's need and recommends one provider.
- [ ] Says what happened when they used it, and names one problem.
- [ ] Compares the two on a need and says why the choice fits.
